ARK-25

54key multi-function LCD display keyboard

USER MANUAL

CAUTION

The following requirements shall be observed to avoid hurting yourself or anybody else, as well as damaging of peripheral devices . The intensions will include (but not limited to) the followings.

Caution

AC/DC adapter:

- Please use specified AC/DC Adapter, otherwise fault adapter may cause damage of your electronic keyboard.
- Do not place AC adapter or power cord near heating source such as central heating or heat radiator.
- Regularly check power plug and clean surface dirt. Do not pull out power plug with wet hand.
- Do not overbend wire and place heavy matters on wire or wind wire with other matters to avoid damaging wire.

Do not open the casing of electronic keyboard:

• Do not open the casing of electronic keyboard and try to disassemble any part of it, nor make any Change to it. Should any abnormal function occur in use, please stop operating it immediately and send it for repair by qualified servicemen.

Location of placing electronic keyboard:

- Do not place the electronic keyboard in an environment of dusty, vibrating, low or high temperature(such as exposed to direct sunshine, near central heat or in the car exposed under sunshine) to avoid damaging appearance or internal part.
- Do not put the electronic keyboard in an unstable place to avoid falling. Do not put any vessel holding liquid on the electronic organ to avoid liquid flowing in it and impairing internal part.

Maintenance:

• To clean the body of the electronic keyboard, wipe it with dry soft cloth. Do not use paint, dope, organic solvent or chemically impregnated cloth.

Connection of peripheral device:

• In order to prevent speaker from damaging, please adjust the volume of peripheral device to the lowest and after music is gradually played, adjust to appropriate volume.

Caution in operation:

- Do not perform the organ with the loudest or uncomfortable volume to avoid decline in hearing.
- Do not place heavy matters on the electronic organ, nor press keyboard, switch and socket with heavy force.
- The package shall be opened by adult to avoid the danger of suffocating infant or children. Please properly store or dispose the plastic package after unpacking. The matters contained are not suitable for using by the children under 3 years old.

Notice

- Specifications are subject to change without notice.
- Should any description of product function be not specified in detail or some typing error occur, Please forgive us.
- What is displayed in LCD in this instruction is only for the purpose of explanation and may be different with actual display in your electronic organ.
- This company retains the right which needs to revise because of the duty and finally interpretation.
- · Useing limited to the tropical regions.

Adapter music tand manual

Appendix IV. Trouble and exclude

Faults	Possible causes/resolution
When you turn on the keyboard, it will be some noise.	Do not worry,it's the normal phenomenon.
When turn on the power swith, play with the keyboard,it's no voice at all.	Check the main volume button if it is in the proper position and headphone jack was connected with other equipments, so that the built-in speaker system cut off.
Distortion sound or interruption, or evencan not work at all.	Use unqualified power adapter or the electric power of the battery is not enough, pls use the power adapter that equipped with this keyboard or replace the batteries.
The note and the timbre of the note has the slight difference in a tone.	This is normal phenomenon caused by different tone sample diapason.
When use the function of sustain, some tone has long sustain but some has short sustain.	This is normal phenomenon because the best length of the sustain of the different tone has been set.
The main voluem and the accompaniment volume is abnormal.	Check the main volume and the accompaniment volume are set at the proper position.
In sync function,but the auto accompaniment does not work.	Check whether single chord or finger chord were set. At this satuation, play 19keys in the left of the keyboard.
When use the external adapter, put on the power switch, no sound, LCD or LED no display.	Check whether power socket has the electricity, and the power adapter was well insertted,the power jack has the poor contact or the voltage is not enough.
When use the batteries, the keyboad is no sound when put on LED/LCD has no display.	Check whether batteries polarity was correct and the batteries has run out.
The pitch of nore is not correct.	Check whether the parameter of transposes is "00".
When use the mobilphone, the keyboard has the noise.	Mobilphone can disturb the keyboard, to avoid the noise, pls turn off the mobil or use it in far place.

Panel control and external function

External Function

- 1.DC 9V power input
- 2. headphone output
- 3. microhpone jack

Prepare to play

Power requirement

1.Use of AC-DC power adapter:

Please use the special AC-DC power adapter provided with this electronic organ or the power adapter with 9V DC output 500mA output currdnt and with central anode. Connect the DC plug of power adapter into the DC 9V power socket in the rear of electronic organ, then connect the other end into the main socket (see that the input voltage of power adapter conform to the voltage of electric supply), finally turn on power switch and start performance.

Cation: When you do not use this electronic organ for a long term, you should pull out the plug of power adapter from main socket safely to avoid possible causing trouble of part or other accident in long-term charging.

2. battery

Open the battery lid in the bottom of electronic organ and load six 1.5V size D batteries, ensuring the polarity should conform to the direction marked on battery lid.Replace the lid after loading batteries.

Cation:Do not use batteries of different kinds and mix new and old batteries.Low batteries will cause low volume or poor timbre and replace batteries at that time.To avoid possible damage caused by battery liquid leakage,please take out batteriesif you will not use the electronic organ for a long term.

Appendix socket

1.Use an external microphone

Use the microhpone (plug size 3.5mm) insert the microphone interface.

Prepare to play

2.Headphone

Put headphones plug into the headphone jack on the back of the keyboard, At this time, the keyboard will automatically cut off the internal speaker. use the headphone can avoid to interfere with others, Especially for personal and night exercises.

Notice: all of the appendix equipment is not included by keyboard, you should buy by yourself, pls understanding.

Basic operation

Basic operation

1. turn on the power:

Connect with the correct installation of the AC power adapter or battery connection, press the "power switch" button to turn on the power, press again. The key is up, the power is turned off the electronic organ

2. master volume control:

By turning the volume knob to adjust the volume level of the heart, clockwise turn up the volume, adjust the rotating in the counterclockwise direction Low volume, adjust the volume and volume changes.

Voice

Voice selection:

There are 300 kinds of voice. The default state is "voice", if the current state is not voice, you need to press the "voice" button. Can be entered directly by digital $0\sim9$, or through the "+" button to select the tone.
