K15

54key multi-function LED display keyboard

USER MANUAL

CAUTION

The following requirements shall be observed to avoid hurting yourself or anybody else, as well as damaging of peripheral devices . The intentions will include (but not limited to)the followings.

Caution

AC/DC adapter:

- Please use specified AC/DC Adapter, otherwise fault adapter may cause damage of your electronic keyboard.
- Do not place AC adapter or power cord near heating source such as central heating or heat radiator.
- $\cdot \ \text{Regularly check power plug and clean surface dirt.} \ \text{Do not pull out power plug with wet hand}.$
- Do not over bend wire and place heavy matters on wire or wind wire with other matters to avoid damaging wire.

Do not open the casing of electronic keyboard:

• Do not open the casing of electronic keyboard and try to disassemble any part of it, nor make any Change to it. Should any abnormal function occur in use, please stop operating it immediately and send it for repair by qualified servicemen.

Location of placing electronic keyboard:

- Do not place the electronic keyboard in an environment of dusty, vibrating, low or high temperature(such as exposed to direct sunshine, near central heat or in the car exposed under sunshine) to avoid damaging appearance or internal part.
- Do not put the electronic keyboard in an unstable place to avoid falling. Do not put any vessel holding liquid on the electronic keyboard to avoid liquid flowing in it and impairing internal part.

Maintenance:

• To clean the body of the electronic keyboard, wipe it with dry soft cloth. Do not use paint, dope, organic solvent or chemically impregnated cloth.

Connection of peripheral device:

• In order to prevent speaker from damaging, please adjust the volume of peripheral device to the lowest and after music is gradually played, adjust to appropriate volume.

Caution in operation:

- $\boldsymbol{\cdot}$ Do not perform the keyboard with the loudest or uncomfortable volume to avoid decline in hearing.
- Do not place heavy matters on the electronic organ, nor press keyboard, switch and socket with heavy force.
- The package shall be opened by adult to avoid the danger of suffocating infant or children. Please properly store or dispose the plastic package after unpacking. The matters contained are not suitable for using by the children under 3 years old.

- · Specifications are subject to change without notice.
- · Should any description of product function be not specified in detail or some typing error occur, Please forgive us.
- What is displayed in LED in this instruction is only for the purpose of explanation and may be different with actual display in your electronic keyboard.
- This company retains the right which needs to revise because of the duty and finally interpretation.
- · Useing limited to the tropical regions.
- lt can be only used in this area that their height above sea level is below 2000 meters.
- It can be only used in non tropical climate.

The power supply unit of network source should prevent from water-drop or water splash.

Appendix V. Technical Specifications

■DISPLAY

- LED Display
- ■Voice
- · 300 kinds of voice

■Style

· 300 kinds of style

■Demo

· 50 demo songs

■Effect control

· Sustain, vibrato, keyboard split, transpose, metronome

■Record program

· Record, play, program

Percussion

8 kinds of panel percussion

■Style control

· Start/stop, sync, intro/ending, fill in, tempo control

■Chord control

· Single chord, finger chord, chord clear

Intelligent tutoring

• Demo, A/B two kinds of teaching function

Other control

· Power switch, master volume, accomp volume

■External jack

• DC9Vpower input, microphone output, headphone output

Diapason

· C2-F6

■Accuracy in musical tuning

- ≤5cent

Specifications

·830x330x85 (mm)

■Weight

• 5. 4Kg

Adapter

DC9V 300-500mA

■Quiescent current

- 100mA

■Parts

· Adapter, music stand, manual

Appendix IV. Trouble and exclude

Faults	Possible causes/resolution
When you turn on the keyboard, it will be some noise.	Do not worry,it's the normal phenomenon.
When turn on the power switch, play with the keyboard,it's no voice at all.	Check the main volume button if it is in the proper position and headphone jack was connected with other equipments, so that the built-in speaker system cut off.
Distortion sound or interruption, or even can not work at all.	Use unqualified power adapter or the electric power of the battery is not enough, pls use the power adapter that equipped with this keyboard or replace the batteries.
The note and the timbre of the note has the slight difference in a tone.	This is normal phenomenon caused by different tone sample diapason.
When use the function of sustain, some tone has long sustain but some has short sustain.	This is normal phenomenon because the best length of the sustain of the different tone has been set.
The main volume and the accompaniment volume is abnormal.	Check the main volume and the accompaniment volume are set at the proper position.
In sync function,but the auto accompaniment does not work.	Check whether single chord or finger chord were set. At this satuation, play 19keys in the left of the keyboard.
When use the external adapter, put on the power switch, no sound, LED no display.	Check whether power socket has the electricity, and the power adapter was well insertted, the power jack has the poor contact or the voltage is not enough.
When use the batteries, the keyboar is no sound when put on LED has no display.	Check whether batteries polarity was correct and the batteries has run out.
The pitch of note is not correct.	Check whether the parameter of transposes is "00".
When use the mobile phone, the keyboard has the noise.	Mobile phone can disturb the keyboard, to avoid the noise, pls turn off the phone or use it in far place.

Power requirement

1.Use of AC-DC power adapter:

Please use the special AC-DC power adapter provided with this electronic keyboard or the power adapter with 9V DC output 300–500mA input current and with central anode. Connect the DC plug of power adapter into the DC 9V power socket in the rear of electronic keyboard, then connect the other end into the main socket(see that the input voltage of power adapter conform to the voltage of electric supply), finally turn on power switch and start performance.

Prepare to play

Cation: When you do not use this electronic keyboard for a long time, you should pull out the plug of power adapter from main socket safely to avoid possible causing trouble of part or other accident in long-time charging.

2. Battery (not included)

Open the battery lid at the bottom of electronic keyboard and load six 1.5V size AA batteries, ensuring the polarity should conform to the direction marked on battery lid.Replace the lid after loading batteries.

Cation:Do not use batteries of different kinds and mix new and old batteries.Low batteries will cause low volume or poor timbre and replace batteries at that time. To avoid possible damage caused by battery liquid leakage, please take out batteries if you will not use the electronic keyboard for a long time.

Appendix socket

1.Use an external microphone

Use the microphone (plug size3.5mm) insert the microphone interface.

2.Headphone

Put headphones plug into the headphone jack on the back of the keyboard, At this time ,the keyboard will automatically cut off the internal speaker. use the headphone can avoid to interfere with others, Especially for personal and night exercises.

Notice: all of the appendix equipment is not included by keyboard, you should buy by yourself, please understand.

Basic operation

Basic operation

1. Turn on the power:

Connect with the correct installation of the AC power adapter or battery connection, press the "power switch" button to turn on the power, press again. The button is up, the power is turned off the electronic keyboard

2. Master volume control:

This keyboad has 8 levels volume from 00-07.the default value of the main volume is 06, press the "+" and "-", the main volume will increase or decrease correspondly. And press "+"together with "-" the main volume will recover the default value automatically .

Voice

Voice selection:

There are 300 kinds of voice. The default state is "voice", if the current state is not voice, you need to press the "voice" button. Can be entered directly by digital 0~9, or through the "+" button to select the voice.

Effects and control

1. Sustain:

Press the "sustain" button to start the action. At this time by the black and white keys will be generated when the effect of extended play. Then click "sustain" button, then exit the function.

2.Vibrato

Press the "vibrato" button to start the function. At this time play the black and white keys to play will be generated when the jitter effect, then press again to exit this function.
