K180

USER MANUAL

61Key multi−function LED display keyboard

CAUTION

The following requirements shall be observed to avoid hurting yourself or anybody else,as well as damaging of peripheral devices .The intensions will include (but not limited to)the followings.

⚠ Caution

Power adapter:
・Please use specified Adapter, otherwise fault adapter may cause damage of your electronic keyboard.
・Do not place adapter or power cord near heating source such as central heating or heat radiator.
・Regularly check power plug and clean surface dirt. Do not pull out power plug with wet hand.
・Do not overbend wire and place heavy matters on wire or wind wire with other matters to avoid damaging wire.

Do not open the case of electronic keyboard:
・Do not open the case of electronic keyboard and try to disassemble any part of it, nor make any Change to it. Should any abnormal function occur in use, please stop operating it immediately and send it for repair by qualified servicemen.

Location of placing electronic keyboard:
・Do not place the electronic keyboard in an environment of dusty, vibrating, low or high temperature (such as exposed to direct sunshine, near central heat or in the car exposed under sunshine) to avoid damaging appearance or internal part.
・Do not put the electronic keyboard in an unstable place to avoid falling. Do not put any vessel holding liquid on the electronic keyboard to avoid liquid flowing in it and impairing internal part.

Maintenance:
・To clean the body of the electronic keyboard, wipe it with dry soft cloth. Do not use paint, dope,organic solvent or chemically impregnated cloth.

Connection of peripheral device:
・In order to prevent speaker from damaging, please adjust the volume of peripheral device to the lowest and after music is gradually played, adjust to appropriate volume.

Caution in operation:
・Do not play the keyboard with the loudest or uncomfortable volume to avoid decline in hearing.
・Do not place heavy matters on the electronic keyboard, nor press keyboard, switch and socket with heavy force.
・The package shall be opened by adult to avoid the danger of suffocating infant or children. Please properly store or dispose the plastic package after unpacking.The matters contained are not suitable for using by the children under 3 years old.

⚠ Notice

・Specifications are subject to change without notice.
・Should any description of product function be not specified in detail or some typing error occur, Please forgive us.
・What is displayed in LCD in this instruction is only for the purpose of explanation and may be different with actual display in your electronic organ.
・This company retains the right which needs to revise because of the duty and finally interpretation.
・It is only used for non tropical climatic condition
.It is only suitable used for areas that is below 2000 meters above sea level.
.The supply electricity of network source prevents water drop or water splash

Appendix V.Technical specifications

■Keyboard
・61 keys standard piano keys with touch response

■Display
・LED display

■Tone
・300kinds of tones

■Rhythm
・300kinds of auto accompaniment

■Demo
・40 demo

■Effect control
・Dual voice、sustain、vibrato、keyboard split、transpose、intro/ending、metronome、touch

■Record and program
・Record、play、program

■Other function
・8 kinds of panel percussion

■Accompaniment control
・Start/stop、sync、tempo control

■Chord control
・Single chord、finger chord、chord clear、chord volume

■Intelligent teaching
・Demo one、one key teacthing、follow teaching

■Other control
・Power switch、accompaniment volume control

■External jack
・DC9V power input、USB MIDI、headphone、micropho ne

■Diapason
・C2-C7

■Intonation
・≤5 cents

■Keyboard size
・1008x431x171（mm）

■Net weight
・5.14Kg

■Power adapter
・DC9V 500mA

■Quiescent current
・120mA

■ Accessories that were equipped with this keyboard
・Adapter、Music stand、User manual

Appendix IV.Trouble and exclusion

| Trouble	Possible causes/resolution
Accompaning a slight noise in turning on/off power	Do not worry,it's the normal phenomenon.
There was no sound when you pressed keyboard on power state.	Check whether the master volume button was set at proper position or headphone out jack was connected with other equipment so the built-in speaker system cutted off automatically
Distorted or discontinued sound , or even system halted	Using unqualified AC adaptor or low batteries.Please use the AC adaptor provided with this electronic keyboard or replace batteries.
The note and its tone quality of a same tone are a little different.	This is normal phenomenon caused by different tone sampling diapason.
When use the sustain function, some tone has long sustain but some has short sustain.	This is normal phenomenon because the best length of the sustain of the different tone has been set.
The main volume and accompaniment volume are abnormal.	Check the main volume control and the accompaniment volume control are set at the proper position.
In sync status,but the auto accompaniment does not work.	Now pressing a note at left-hand keyboard area (19 keys in the left of keyboard).
When use the external adapter, The electronic keyboard has no sound when power is on, the LCD has no displaying	Check whether power socket has the electricity,the power adapter has been insertted well,or the power jack has the poor connection , the voltage is not enough. Or the adaptor has been damaged.
When use the batteries,the keyboad has no sound when power is on,LCD has no displaying.	Check whether batteries polarity was correct and the batteries have run down.
The pitch of nore is not correct.	Check whether the parameter of transpose is "00".
When use the mobilephone, the keyboard has the noise.	Mobilephone can disturb the keyboard,to avoid the noise,pls turn off the mobilephone or use it in far place.

Caution:When you don' t use this electronic keyboard, you should unplug the plug of power adaptor from power socket safely to avoid the parts trouble or other accident for long-term charging

2.Using batteries for power supply

Open the battery lid at the bottom of electronic keyboard and load 8pcs I.5V size D batteries , ensure the polarity of the batteries should conform to the anode and cathode direction of batteries marked on battery lid. Cover the battery lid after the installation.

$$\ominus \quad \boxed{1.5V} \boxed{1.5V} - \cdot - \cdot - \cdot - \cdot \cdot \boxed{1.5V} \oplus$$

8 batteries altogether

Caution : Don' t use different kinds of batteries at the same time and mix new and old batteries for use.The volume will go down and the timbre will be bad if the electrical quantity of batteries isn't enough,you have to replace the new batteries now.Please take out the batteries as to avoid possible damage caused by the batteries leakage if you don' t use the electronic keyboard for long time.

Accessories jacks

1. USB MIDI jack

Connect USB jack of this keyboard to USB jack of another electronic equipment that is compatible with MIDI by USB line,this electronic keyboard can receive and send MIDI equipment data.
Caution:The USB audio equipment cann't be setted for input and output at the same time when you do the setting of the computer software,or else the sould will be overlapping when you play the keys.It can support the system that is above WIN7.

2.Use external microphone

Insert electret microphone(plug size:3.5MM) into microphone jack

3.Use headphone

Insert headphone plug into[HEADPHONE] jack in back of electronic keyboard.The internal speaker system of electronic keyboard cuts off automatically now.Using headphone doesn't intefere with others during performance,it is special for personal monitor and exercising at night.
