Finals proposition announced of the 1st International Youth Literature and Art Series Competition

Hello, all contestants! First of all, congratulations again on your good results in the preliminary competition, and welcome you to participate in the finals of the first "International Youth Literature and Art Series Competition". Please choose one of the following propositions and create according to the requirements of "Attachment 1". Finally, I wish you another great achievement!

Proposition 1: the world is better

In recent years, factors such as the epidemic, global economic recession and war are the main factors hindering global development, but young people are not despairing and discouraged because of this, but they are more actively facing it. We always firmly believe that as long as the global human beings unite, the world will be better in the future! In this regard, please create around the development of the world.

Proposition 2: Happiness

In your mind, what is happiness? Everyone's lifestyle is different, resulting in different happiness in everyone's heart, but the same is that as long as you cherish and love life, you will be happy. In fact, happiness is very simple, happiness is all around, and happiness can be seen everywhere, but we often ignore it. Dear students, I think that we are accompanied by our family, teachers, friends and classmates, and we can grow up healthily and happily, that is happiness, let us cherish and love life. In this regard, please create around happiness.
