

International Conference of Advanced Coatings and Films (ICACF2023)

Shenzhen World Exhibition&Convention Center, China

November 27-30, 2023

Conference Notice

Advanced coating technology is one of the key technologies in modern cutting and processing. In order to promote the development of cutting and processing technology in advanced manufacturing industries both domestically and internationally, the International Joint Institute of Advanced Coating Technology (Taizhou ·China), in collaboration with the Shenzhen Vacuum Technology Industry Association, will hold the 2023 International Conference on Advanced Coating and Tool Materials (ICACF2023) in Shenzhen, China from November 27th to 30th, 2023. This conference will gather well-known experts, scholars, and enterprise technology experts from both domestic and foreign countries to hold a series of academic thematic discussions and innovative technology seminars, focusing on the latest research results and cutting-edge information of advanced coating technology and tool materials. The aim is to deeply explore the development trends of global advanced manufacturing industry, explore the latest development trends, innovative methods, and challenges of cutting processing technology, Explore the future direction of tool materials and advanced coating technology together. The successful holding of the conference will promote the continuous innovation and progress of cutting technology in China and even the world's advanced manufacturing industry, promote technical cooperation, exchange and development at home and abroad, and make positive contributions to the realization of the goal of Made in China 2025.

I、Conference Organizer

- International Joint Institute of Advanced Coating Technology
(Taizhou ·China)
- Shenzhen Vacuum Technology Industry Association

II、Conference time: November 27-30, 2023

III、Conference location: Shenzhen, China

IV、Conference fees and registration

	Abroad			Domestic		
	Before October 1st	Before November 1st	After November 1st (and on-site)	Before October 1st	Before November 1st	After November 1st (and on-site)
