**C**

Kenya is one of the best places to see Africa's animals in the wild. It is also the home of the following animals of Africa.

**①African Lion**

The animals live in large groups. The groups often have around 15 members. The males(雄性)are different in color, usually from orange-yellow to dark brown. They have long hair on the neck while females(雌性)don't. Young males leave their group when they are around three years old.

**②Cape Buffalo(水牛)**

The animals are a large African animal with a pair of big horns(角). When they meet enemies, they will form rings around the young and use their large horns to protect them. Though the animals look like large black cows, they are stronger and get angry more easily.

### ③ African Rhinoceros(犀牛)

The animals have a large mouth and two horns on their face — a large one in front and a small one behind. The large horn can grow to 60—150cm long. The animals enjoy staying in mud pools and spend a lot of time cooling off in water. The animals are becoming fewer and fewer because many of them are killed for their horns.

### ④ African Elephant

The animals are clever animals. They often communicate with one another and travel a long way to find food or water. They use their long trunks(鼻子)to lift things, drink, smell, and to greet each other. The animals always play with each other and help the old or sick family members.
