ABOUT US

关于我们

Qingdao Keysmile Valves Co. Ltd. is located in the Environmental Protection Industrial Park of Jimo District, Qingdao, China. It is a professional company that mainly produces cast steel, cast iron, cast copper and other materials, Japanese standard (JIS) marine valves and oil and water tank air caps and other products. Since its establishment, the company has integrated R&D,production and sales. It has continuously cooperated deeply with the world famous brands shipbuilding industries, introduced advanced domestic and foreign technologies and equipment, and provided the high quality products to the market through complementary advantages.

Qingdao Keysmile Valves Co. Ltd. keeps focusing on our ability to continuously improve and adapt according to market growth and demand. With conscious efforts, we have adjusted our product structure and focused on the implementation of technological transformation, which has significantly improved our core competitiveness and development abilities. With excellence in quality and innovation, Qingdao Keysmile Valves Co. Ltd. meets different product customization and unique needs of our customers,through our automated equipment, lean production,intelligent management, and technical teams.

The company has passed ISO9001:2000 quality management system certification and obtained ABS, CCS, BV and other certificates. The products have been recognized by many national classification societies and exported to Japan, Singapore, South Korea, Greece and other countries. The quality has reached the world's advanced level and has been praised by customers!

Qingdao Keysmile Valves Co. Ltd. adheres to the corporate governance policy of "leading technology, quality as the basis, and innovation as the soul". We are walking with you!
