About Mocai

Mocai, a close partner of Changrunfa Paint Co., is a leading environment-friendly coating solution provider in China. This company is famous for producing UV-cured boards that are extensively used in furniture manufacturing, home decoration, and commercial space and exhibition construction. Mocai has production bases located in Huizhou and Chongqing, with 8 automated UV coating production lines, 4 automated custom furniture production lines, and 3 high-precision veneer lamination lines. It can produce 30 million square meters of various decorative panels and flat furniture.

Furthermore, all "JOY" brand UV cured wood boards have the exclusive qualities of environmental protection, low carbon, and high efficiency. They are also highly customizable. Mocai is leveraging its UV curing technology to produce customized wood veneer boards, wall panels, workpiece boards, and flat furniture. In the five years since its establishment, Mocai has developed into one of the largest and most powerful suppliers of UV cured panels in China.

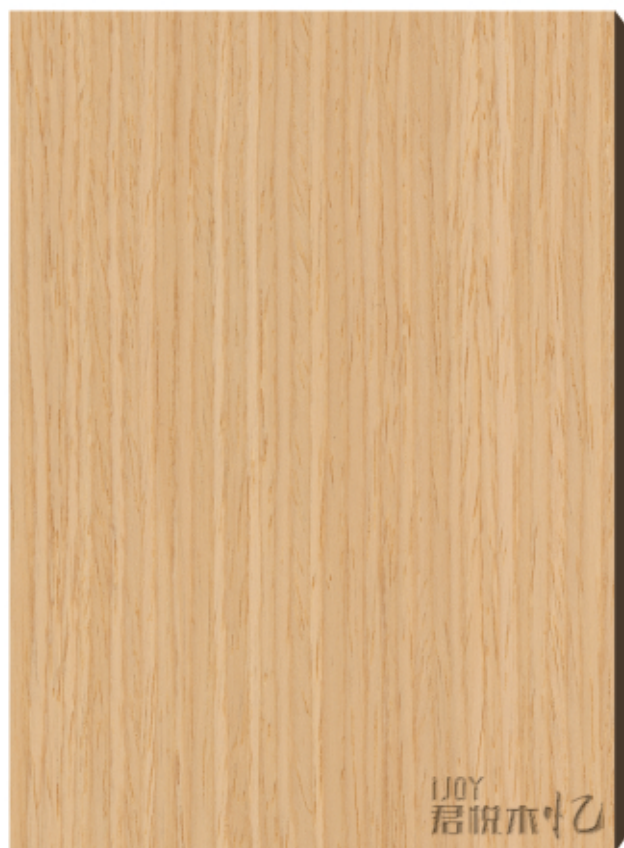

The company has implemented an international development strategy to smoothly enter the competitive international market. Its products are currently being exported to the United States, France, Australia, Canada, Japan, Iran, Turkey, Russia, India, United Arab Emirates, Egypt, Pakistan, Greece, Uzbekistan, Jordan, Vietnam and other countries, winning the trust and praise of customers along the way.

The company has invested heavily in R&D and technology upgrades, and as a result, it now holds 16 invention patents and has won the national certificates of the High-tech Product.

With its high-end technology and control over the whole production chain, Mocai's adherence to a professional, pragmatic, and synergistic work style has allowed it to innovate a healthy, efficient and fast-installing wallboard system that stands at the forefront of development within its industry.
