Many people like shopping, and most women like to buy clothes. But do you know how to buy clothes? Here are some suggestions for you to pay attention to:

First, when you want to go shopping, decide how much money you can spend on new clothes. Think about the kind of clothes you really need. Then look for those clothes you

really need. Then look for those clothes on sale.

Second, there are labels inside all new clothes. The labels tell you how to take care of your clothes. The label (标签) for a shirt may tell you to wash it in warm water. A sweater label may tell you to wash in cold water. The label on a coat may say "Dry clean only", for washing may ruin this coat. If you do as the directions on the label tell, you can keep your clothes looking nice for a long time.

Third, many clothes today must be dry-cleaned. Dry cleaning is expensive (昂贵的). When buying new clothes, check to see if they will need to be dry-cleaned. You will save money if you buy clothes that can be washed.

Fourth, you can save money if you buy clothes that are well made. Well-made clothes last longer. They look good even after you have washed them many times.
