ENTERPRISE INTRODUCTION

关于我们

上海卡维迪环境工程有限公司致力于为全球工业加热领域提供高效、节能、环保的燃气红外线加热系统解决方案，以及燃烧加热交换器盘管、设计、研发、生产加工的系统集成商。公司拥有多项专利技术，先后开发了多个系列、几十个型号的燃气红外线加热系统。同时我们还与国内外（美国及德国合金纤维材料公司）多家高校和科研机构开展产学研合作。

自成立以来，公司产品以其卓越的品质和优良的服务赢得了国内外客户的赞誉。放眼未来，企业人将以百倍的热情和努力，致力于发展成为具有全球影响力的专业化的工业热能设备提供商，为更广大的客户提供更优质的产品和更完美的服务！

Shanghai KAWEIDI Environmental Engineering Co.,Ltd is committed to provide high efficiency, energy saving, environmental protection in the field of global industrial heating gas infrared heating system solutions, and combustion heat exchanger coil,design,research and development, production and processing of system integrators.The company has a number of patented technology, has developed several series, dozens of models of gas infrared heating system. At the same time we also at home and abroad (the United States and Germany alloy fiber material company) with many universities and research institutions to carry out the production-study-research cooperation.

Since its establishment, the company's products for its excellent quality and good service won the praise of customers at home and abroad.For the future,Companies who will be one hundred times more enthusiasm and hard work, com-mitment to become a global influence of specialized industrial heat equipment provider,to provide a wider customer more high quality products and perfect service!

技术背景介绍

公司拥有数名高级技工 ,长期在从事于手套、玻纤、热水器、食品烘干、谷物 烘干、供暖、涂装、纺织、印染、造纸、废气处理、表面处理等设备的研发 生产销售工作，拥有丰富的技术和操作经验。公司同时拥有燃烧加热系统、非标燃烧器设计、换热盘管的设计、研发、生产加工的先进工艺技术，并且 拥有高素质系统集成商能力，销售、服务为一体的技术团队。

The Company has several senior technicians， long engaged in Glove drying, glass fiber. Water heater, food drying, grain drying, heating, coating, textile, printing and dyeing, paper making, waste gas treatment, surface treatment equipment research and development production and sales , have rich experience in technology and operation. At the same time，the company has combustion heating system, non-standard burner design. So the heat exchange coil design, development,production and processing of advanced technology and has high quality systems integrators ability, sales,serves as one of the technical team.

服务标准

让每一个项目（客户）都成为卡维迪的样板工程及长期合作伙伴；
Make every project（customer）sample project of KWD long-term partner;

服务目的

提高用户满意度、让“卡维迪”产品能够成为客户值得信任的品牌。
To improve customer satisfaction，make “KWD”products can become customers trusted brand.

公司专利

Our patent certificates

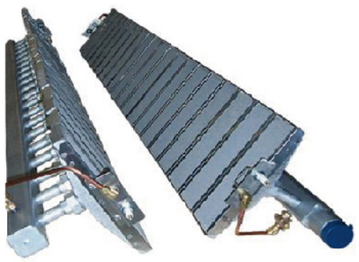

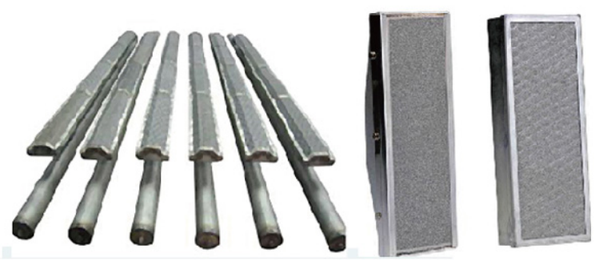

高效、节能、环保
是我们的使命，
我们用心从细节做起 ！

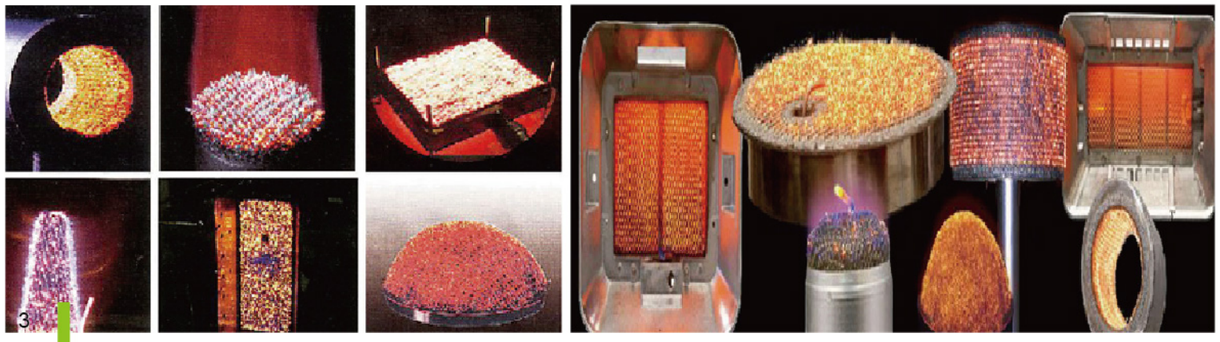

High efficientcy, energy saving, environmental protection is our mission,
we carefully the details from the start!

目录
CONTENT

01 高 效 HIGH EFFCIENCY

红外线燃烧器系统结构图	Infrared burner system structure	05
乳胶产品烘干行业应用	Latex product drying industry applications	06
工业清洗槽行业应用	Industrial cleaning tank applications	06
燃气红外线玻纤行业应用	The use of IR burners for fiberglass drying	07
造纸印刷行业应用	The use of IR burners for paper drying	07
纺织印染行业应用	Textile printing and dyeing industry application	08
洗涤烘干行业应用	Washing and drying industry applications	08
火焰表面处理行业应用	Flame surface treatment industry application	09
