G560-S3-01-356 步进剪线/Stopper Motor Control Thread Trimmer

G560-S3-35ZD-356 步进剪线/Stopper Motor Control Thread Trimmer

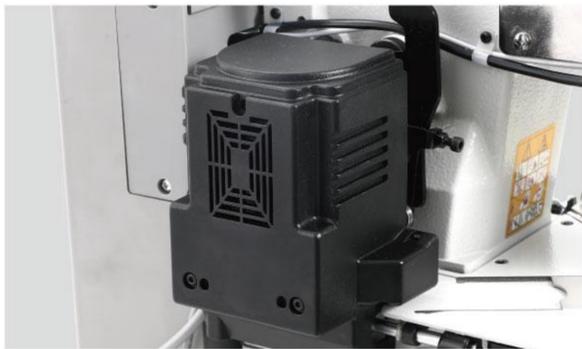

高转速 High speed **5000rpm**

剪线 Thread trimmer **自动 Auto**

抬压脚 Presser foot lift **自动 Auto**

全新设计的智能化产品，一体型电控箱设计，采用强制性内供油结构，大大减少零配件磨损，使用新型牙架结构，使用寿命更长，经济性更好。采用步进电机驱动，剪线和抬压脚声音更轻。同时兼容老款电磁铁安装，具有上下停针位功能。标配机型配置打线凸轮外移，防止凸轮绕线，穿线更方便。适合于筒状袖的布料缝纫，可分别选配多种附加装置、功能和扩展系列，如盖缝、滚条缝、下摆折边、自动剪线、自动夹线、自动抬压脚等功能，可选触摸按键屏或触摸彩色屏等。

A newly designed intelligent product with an all-in-one electronic control box design and a mandatory internal oil supply structure, greatly reducing wear and tear on spare parts. The use of a new tooth rack structure results in longer service life and better economy. Driven by a stepper motor, the sound of thread cutting and presser foot lifting is lighter. At the same time, it is compatible with the installation of old electromagnets and has the function of stopping the needle up and down. The standard model is equipped with a thread cam that moves outward to prevent the cam from winding and making threading more convenient. Suitable for sewing fabrics with cylindrical sleeves, it can be equipped with various additional devices, functions, and extended series, such as cover sewing, rolling sewing, hem folding, automatic thread cutting, automatic thread clamping, automatic pressure foot lifting, and other functions. It can be selected from touch button screens or touch color screens.

步进电机控制抬压脚、剪线功能

The latest stepper motor controls the lifting foot and wire cutting function

一体电控，USB充电、LED灯、高效便捷

Integrated electronic control, USB charging, LED lights, efficient and convenient

采用打线凸轮外移，防止凸轮绕线，穿线更方便。

The thread cam is used to move outward to prevent the cam from winding, and the threading is more convenient.

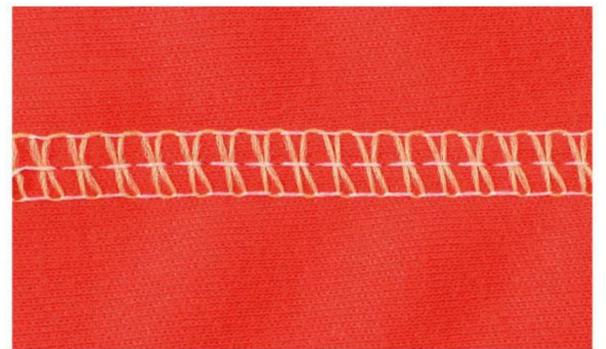

修齐两片布接缝之左下方多余布料，缝纫后更加整齐美观。

Trim the excess fabric at the lower left of the seam between the two pieces of cloth to achieve a neater and more aesthetically pleasing appearance after sewing.

自动剪线、自动夹线

Automatic thread trimming, automatic clamping

线迹整齐美观

Neat and beautiful stitches
