## 智能侧切刀自动剪线平缝机

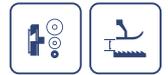

Intelligent Side Cutter Automatic Thread Trimming Lockstitch Machine

# Flat seam cutter, freely switchable 平缝切刀 自由切换

## 智能侧切刀自动剪线平缝机

Intelligent Side Cutter Automatic Thread Trimming Lockstitch Machine

**S3-K** 开放油盘/Open oil tank

**S3A-K** 封闭油盘/Closed oil tank

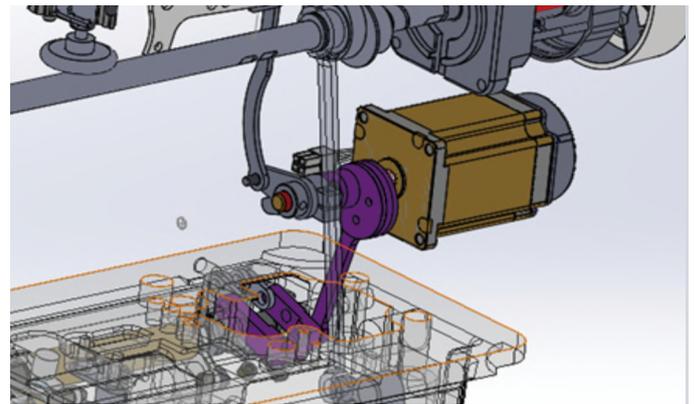

全新设计的智能化的产品，具有一体型电控、内嵌式大屏亚克力操作面板。单步进电机控制针距、倒缝、抬压脚，标配 USB 接口等多种功能。步进电机控制针距，精确度可达 0.1mm，倒缝和抬压脚无声。可缝制出九种不同线迹花样缝。具有侧切刀的功能，缝纫修边能够同时完成，提高缝纫的效率。广泛适用于各种衬衫、西服、裤子的缝制。

This newly designed intelligent product features an integrated electric control system and an embedded large-screen acrylic operation panel. A single stepper motor controls the stitch length, reverse stitching, and presser foot lifting, with standard configurations such as a USB interface and various other functions. The stepper motor-controlled stitch length achieves a precision of up to 0.1mm, and reverse stitching and presser foot lifting operate silently. It can produce nine different stitch patterns. Equipped with a side cutter function, it enables simultaneous sewing and edge trimming, improving sewing efficiency. It is widely applicable to the sewing of various shirts, suits, and trousers.

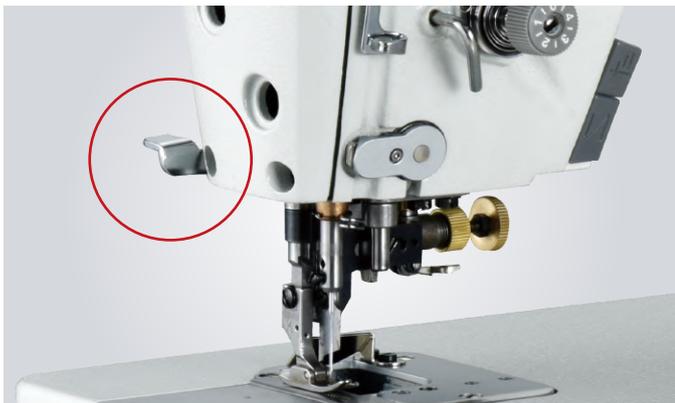

集成内嵌式的大屏操作面板，发光LOGO

Integrated built-in large-screen operation panel, illuminated LOGO

步进电机一拖二控制：针距、倒缝、抬压脚

Step motor control 2 automatic functions: Needle gauge, reverse feeding, pressure foot lift.

切刀回位拨杆，固定刀架，平缝切刀两用功能

Knife return lever, fixed knife holder, dualpurpose function of flat seam cutter

大风力手轮加大进气量，降低电机电控温度，提高使用寿命

High efficiency hand wheel, with better air ventilation: reduce the temperature of the motor and control box.
