S3A-QB SERIES

智能切包一体平缝机

Intelligent Integrated Cutting And
Overlocking Flat Sewing Machine

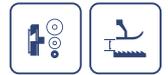

Integrated cutting and overlocking, all in one step

切包一体 一步到位

智能切包一体平缝机

Intelligent integrated cutting and overlocking flat sewing machine

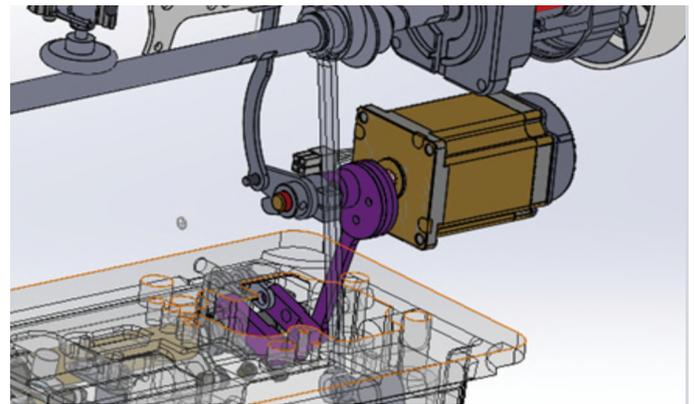

S3-QB 开放油盘/Open oil tank

S3A-QB 封闭油盘/Closed oil tank

全新设计的智能化的产品，具有一体型电控、内嵌式大屏亚克力操作面板。单步进电机控制针距、倒缝、抬压脚，标配 USB 接口等多种功能。步进电机控制针距，精确度可达 0.1mm，倒缝和抬压脚无声。可缝制出九种不同线迹花样缝。具有侧切刀的功能，缝纫修边能够同时完成，提高缝纫的效率。广泛适用于各种衬衫、西服、裤子的缝制。

This newly designed intelligent product features an integrated electric control system and an embedded large-screen acrylic operation panel. A single stepper motor controls the stitch length, reverse stitching, and presser foot lifting, with standard configurations such as a USB interface and various other functions. The stepper motor-controlled stitch length achieves a precision of up to 0.1mm, and reverse stitching and presser foot lifting operate silently. It can produce nine different stitch patterns. Equipped with a side cutter function, it enables simultaneous sewing and edge trimming, improving sewing efficiency. It is widely applicable to the sewing of various shirts, suits, and trousers.

集成内嵌式的按键操作大屏，可选配触摸屏，发光 LOGO

Integrated embedded button operation large screen, optional touch screen, illuminated logo.

步进电机一拖二控制：针距、倒缝、抬压脚

Step motor control 2 automatic functions: Needle gauge, reverse feeding, pressure foot lift.

包边缝纫，合二为一

Piping sewing, combining two into one

大风力手轮加大进气量，降低电机电控温度，提高使用寿命

High efficiency hand wheel with better air ventilation: reduce the temperature of the motor and control box.
